

This video is basically showing you

- 1) How to use the TI-83 or 84 to solve systems of equations
- 2) If your calculator doesn't have that application but a friend of yours does, how to transfer the application from your friend's calculator to yours
- 3) If you don't have a friend who has that application, how to download it from Texas Instruments website

There is no handwritten work to show in this video.
